No problem. I'm on the road as well - seems it is never ending lately so I know how hard it is to stay caught up and I really do appreciate the reply. I think I found some of it online, but I'm sure it's not inclusive. I'll wait to see what gets posted. I'm actually with many of the tire manufacturers and reprocessors at a conference called "Scrap to Profit" in Nashville all about end of life tire use. Most of the focus is on TDF, TDA and molded/extruded products but of course this topic always comes up ☺

Thanks!

Dear

Sorry to miss you at ISES. We are working on getting the presentations posted to the Tire Crumb website. I will let you know when this is done.

I am traveling again this week so apologies for the delayed response.

Also, I appreciate your offer of assistance. Thank you.

Hope all is well with you.

Best Regards, Annette.

Dr. Guiseppi-Elie –

I'm sorry I missed the presentations that were given last week at the ISES Conference. Will those presentations be made available or is that something you may be able to share? I've read the abstracts and am very interested in learning where each facet of the study lies at this time.

Please let me know and of course, if we can be of any further assistance at all don't hesitate to ask.

Kind regards,
